

Başka Sinema: An Unprecedented Cinema Experience in Turkey

Başka Sinema, in collaboration with **M3 FILM** and KARIYO & ABABAY VAKFI, is a platform that brings nationally and internationally acclaimed films to the audience by using a different screening approach. Since November 1st 2013, Başka Sinema ensures exposure for independent movies that would otherwise be difficult to release in Turkey. Similarly to festival screenings, Başka Sinema shows three different movies everyday at the same venue. Movies also stay in theatres longer so you can catch them. On Wednesday nights, Başka Çarsamba organises Surprise Film Night, Short Film Screening, Gala Screening, Documentary Screening and more special programs. Furthermore; local films are screened with English subtitles. In short, Başka Sinema is great news for cinema lovers! Check their website (www.baskacinema.com) to know the participating cinemas and check the screenings details.
